# 2023 BRUMBIES HOSPITALITY

# WHO ARE WE?

Brumbies Rugby Union play Super Rugby at an International level representing ACT and Southern NSW. The team are hugely popular on the local and International stage and are considered the most successful Australian franchise having reached the final of the competition eight times and won the tournament on three occasions. Not bad for a team, who was founded in 1996 and was originally made up of players rejected from the other Australian teams in the Super Rugby tournament! [then known as the Super 12]

Brumbies Rugby also facilitate local competitions featuring 7 major divisions, 92 senior teams, 232 junior teams and 7204 registered players.

The Brumbies world-class high-performance program is regarded as one of the best programs in world rugby and has helped the club recruit players from all corners of the globe whilst never neglecting the local talent.

The ACT & surrounds have always proven to be a fertile breeding ground for future international stars and the Brumbies are immensely proud of the record that nearly 50% of players who have represented the franchise have gone on to play for Australia.
